WELCOME TO LILY DALE

WELCOME TO LILY DALE

Welcome to Lily Dale Assembly...a place of tranquility...a respite from the anxieties of the everyday world...a storied, safe haven for reflection. Here you can breathe...and embrace both the beauty of nature and the charm of the Victorian era. Lily Dale Assembly is the World's Largest Center for the Science, Philosophy, and the Religion of Spiritualism, now celebrating its 144th year. Here is a place where you may find answers to your questions, connections with loved ones who have crossed over, healing, and peace for your weary soul.

In our historic hamlet, you will discover daily inspiring demonstrations of mediumship at services held in resplendent settings, such as Inspiration Stump and the Forest Temple. You may find renewal of your physical and spiritual energies in the Healing Temple, where our dedicated Spiritual Healers are available to work with those who desire an individual healing experience.

There are daily presentations on the wonders of mediumship, as well as in-depth classes and experiential workshops on a variety of topics such as personal development and spiritual growth. Many are led by nationally recognized wisdom teachers and well-known mediums. Each day of the season offers a series of events and experiences to bring information, enlightenment, hope, and peace to all those who open their hearts to receive.

We welcome you to wander through our historic Victorian village to discover the unique architecture of homes from a bygone era. We invite you to relax and reflect in our many gardens, watch the waterfowl, or canoe on tranquil Cassadaga Lake. Enjoy nature trails that will take you through Old Growth Forests that have remained untouched for hundreds of years. Visit our quaint shops for unique spiritual items, books, clothing, and music. Stop for a leisurely meal at The Lily Restaurant, lighter fare at The Sunflower Café, and

specialty coffees and yummy desserts at the Sacred Grounds Coffee House. Whether you stay for a day, or a week in one of our two hotels, or one of our many Guest Homes, we know you will leave our grounds refreshed and inspired!

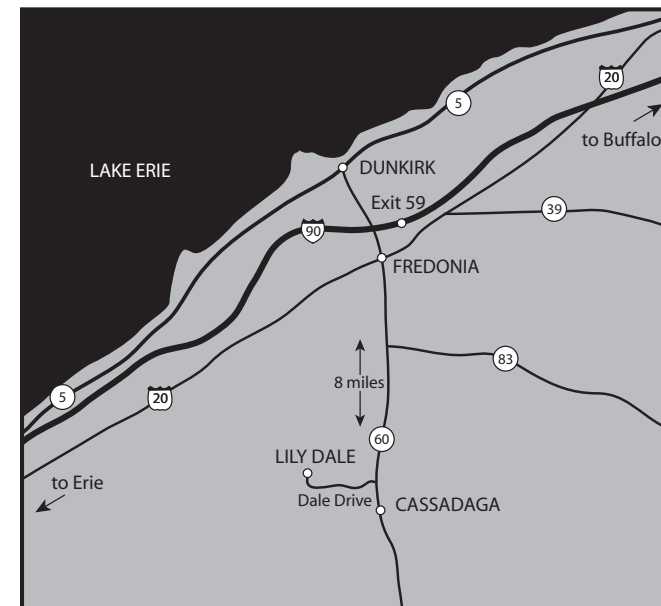

The Community of Lily Dale is dedicated to the service of God, Spirit, and Humanity. We believe this is the foundation upon which all else rests. Come visit us and open your minds and hearts to receive what you believe is the highest and best for you. It is our fondest hope that you leave with peace in your heart and a deeper awareness of your connection to the Divine.

The Fox Memorial Garden

It was in the Fox Family Cottage in Hydesville, New York where the sisters Kate & Maggie Fox first made contact with the spirit of Charles B. Rosna on March 31, 1848. That day was considered the beginning of modern American Spiritualism.

The Fox Cottage was transported in sections to Lily Dale and reassembled there in 1915. For many years Spiritualists from around the world visited the Cottage to honor Spiritualism and the Fox Sisters. Sadly the Cottage burned down in September of 1955. All the remains from the fire were buried within the basement and covered over with soil. Today we maintain this garden in memory of those humble beginnings. And we hope that you, too, will use this peaceful and revered place in meditation to connect with your spiritual history and open to your higher thoughts and spirit within.

Lakeside Assembly Hall

Since the 1880s, the Assembly Hall with its gallery of portraits of many of the historic leaders in the Spiritualist Movement, many of whom resided in Lily Dale, has been a hub of activity in the community. The home of the Church of the Living Spirit, it is the center for workshop activity during the summer season.

Lily Dale's Fairy Village (Behind Fire Hall)

The Fairies decided the Fairy Trail was becoming overpopulated and they needed to establish a larger community. They selected a beautiful, more level, and larger piece of land in the woods behind the Healing Temple.

Lily Dale Museum

Hours: 11am-4pm Daily, In-Season: June 23 - Sept. 3

Pre-Season and Post-Season by appointment only (716) 969-4825

A historic one-room schoolhouse built in 1890 houses the Lily Dale Museum. The museum is located at the corner of Library and East Street, across from the Healing Temple.

A vintage pictorial display is on view that includes pioneer landmarks, early lectures, and mediums. The Fox family display includes the peddlers box and Fox family memorabilia and artifacts. Susan B. Anthony's woman suffrage display has been noted as one of the best in the country. Precipitated Spirit Paintings and Slates by the Bang Sisters and Campbell Brothers adorn the walls to add to this Victorian Building's atmosphere. Come to experience a "walk back in time" by viewing memorabilia of an earlier era. Our Museum's extensive collection of Spiritualist newspapers, magazines, and pamphlets has been acclaimed as the foremost research source of early Spiritualism and its pioneers.

Any donations received will help expand and maintain our Museum and are tax deductible. Checks can be made out to the Lily Dale Assembly Museum.

The Lily Dale Labyrinth

The Lily Dale Labyrinth was established and planted by Fellowships of the Spirit in the fall of 1991 as a gift to the Lily Dale Assembly's members and guests. Labyrinths can be found all over the world and have been used for many different purposes, including ceremonial and ritual, throughout the ages.

The intention of the Lily Dale Labyrinth is to help lead spiritual seekers on an inward journey. We invite you to take this journey for yourself, too. As you walk slowly and purposefully around the Labyrinth, allow yourself to ask specific questions and listen within. You will be guided to the answers you seek about the situation at hand – and, indeed, about life's most important questions.

DAILY ACTIVITIES

INSPIRATION STUMP

Inspiration Stump is a spiritual retreat found at the end of a tranquil trail in the Leolyn Woods, which is an old growth forest. You are invited to participate in the services held twice a day at 1:00pm and 5:30pm at this sacred spot. Since 1898, services have been offered at Inspiration Stump by the mediums giving short messages to those in the audience during each service. Enter the woods in an open and receptive state: Beyond the possibility of receiving a message of meaning, you may experience a renewal of your spiritual energies. Please show consideration for the mediums who are working and those who are receiving messages by refraining from unnecessary noise or movement that disrupts the flow of energy. (In the event of inclement weather, a bell will be rung to indicate the location of service.)

HEALING TEMPLE

Dedicated to the principles of spiritual healing, the Healing Temple was opened in 1955. It has remained a place of peace and solitude for all those who come to renew their energies through healing or quiet meditation and prayer.

Monday to Friday – 10:30am-11:30am; 7:00pm-8:00pm
 Saturday – 10:00am-11:30am
 Sunday – 12:00 Noon-1:00pm; 7:00pm-8:00pm

SUGGESTIONS FOR A HEALING

This is a guide for receiving a spiritual healing. It will help you open your heart and mind to receive beautiful, channeled energy from any one of the healers.

Please be respectful by remaining quiet prior to and during service.

- When you receive a healing, relax and enjoy the experience. Your awareness can be greater if you relax, place your feet on the floor, hands in your lap, with palms turned upward. Breathe in and out slowly several deep breaths and gently close your eyes. RELAX.
- The true value of spiritual healing is not always measured immediately, although you may verify and recognize immediate change, healing energies will remain with you indefinitely. ALLOW.
- There are many healers who serve the Temple. They each have their own unique gifts of healing. If you have any questions, they will be happy to assist you after the service. EXPECT GOOD.
- Before receiving, ask God's healing source to remove all obstacles from your path so you may receive. ASK.
- One healing per service is appropriate. BE PATIENT.
- Spiritual healing is not a substitute for medical treatment.
- You are not expected to discuss your condition or problem with your healer, however, general information could be helpful.
- Remember to give thanks for the healing energy brought to you through your healer. GRATITUDE. "Laying On Of Hands" is an old art of healing. Many cultures all over the world use this helpful healing technique to direct energy from the God source.

WEEKLY ACTIVITIES

Wednesdays, June 28 - August 30

GHOST WALKS WITH RON SKOWRONSKI AND RAY TAFT
Registration begins at 8:00pm in the Auditorium, walk starts at 8:45pm same location, \$20

These are not GHOST HUNTS! The purpose is SPIRIT AWARENESS. Some people define "ghost" and "spirit" differently. Find out as our nighttime walking tour of Lily Dale begins at the auditorium with a brief overview of Spiritualism and the unseen realms, a brief history of how Lily Dale got started, and how it rapidly grew to become the world's largest center for the religion of Spiritualism. If it rains, be sure to bring an umbrella, it won't "dampen our spirits". If it is pouring out, our tour will end in Assembly Hall, where Spirits have helped seekers for almost as many years as at the "Stump".

The tour requires about an hour of walking and some stair climbing. Those with any handicapped restrictions are welcome to attend as best they can. We encourage you to have your own transportation. All of your Spirit Walk hosts are familiar with Lily Dale and its "haunts". Each has a special love for "the Dale" and its history. No two tours are alike. While there is never a guarantee that you'll see a ghost or sense Spirit, you're sure to gain a better understanding of them and of Lily Dale.

Thursdays, June 29 - August 31

2023 DAILY AUDITORIUM SCHEDULE

The Auditorium Service

Built in 1873, the Auditorium is an historic part of Lily Dale and is the center of many activities during the summer season. Each day, Monday through Saturday from 2:30-3:30pm, an inspirational service is held in the Auditorium featuring a speaker and a medium. The purpose of this service is to inform and educate our visitors about Spiritualism and to inspire them to apply Spiritualist principles to everyday life. Sunday morning Church services are also held there at 10:30am - noon each week during our summer season by our local Spiritualist churches. The Lily Dale Assembly invites, welcomes, and encourages all visitors to attend these services as well as all other activities advertised on the grounds.

SPECIAL EVENTS

Community Church Service

Sunday, June 18, Auditorium

10:30am-12:00 Noon

EVERYONE WELCOME!

It has been a Lily Dale tradition to hold a Community Church Service in the Auditorium on the Sunday before our summer season begins. This service is conducted by Lily Dale Spiritualist Church, Church of the Living Spirit, Fellowships of the Spirit and City of Light Spiritualist Church. It is a beautiful way to begin our summer season program. Everyone is welcome, please bring your family and friends.

Butterfly Release Ceremony

Friday, June 23

12:30pm-1:00pm

Butterfly Garden across from The Lily Café
\$15.00 advance payment recommended

Developing through a process of metamorphosis from egg to larva (caterpillar) to pupa (chrysalis) to adult, the butterfly serves as a metaphor for our own existence. As Spiritualists, we believe we enter the world in human form and transition to Spirit through the change called death. The release of newly awakened butterflies is an opportunity to remember the souls of loved ones, who are with us always and perpetually experience our love and prayers. A \$15.00 advance payment reserves a butterfly for you. Though butterflies may be available for purchase on the day of the event, there is no guarantee. Registration begins at 12:00 noon.

Open Sweat Lodges

Sunday, July 2 – Wednesday, August 30

Different days and times, Beach

Good will offering; No registration required; First come, first served (Max 22)

Sign-up begins 2 hours BEFORE the scheduled start time. Sign up directly at the lodge area at the beach. No text or e-mail requests allowed. Lodge ceremony is one way to connect with the Spirit Realms and the Divine. Lily Dale's lodge is a structure made of saplings bent over to form a small dome high enough to crawl into and sit up inside. Usually, about 22 people can squeeze in to form 2 circles around the center. Red-hot rocks from the outside fire are brought into the center "Stone People's pit." Water is poured onto them, creating a "sacred breath," which helps to center us and pray. The lodge ceremony can last between one and several hours, depending on the leader and the needs of those attending. No two ceremonies are alike. Appropriate attire for Lily Dale's lodges includes shorts and a t-shirt, although some leaders prefer women to choose the more traditional long (below knee) skirt and a t-shirt that covers the elbows. Please bring a towel and a dry change of clothes. No bathing suits please. We reserve the right to turn away anyone whose presence may be considered disharmonious to the group. If there are enough latecomers after the first 22 participants, and there is interest, there may be another lodge about 2 hours after the first one.

Please note: It can get very hot and crowded inside the lodge. Most leaders do not permit women on their "moon-time" (menses) to go inside. Please ask the leader when you arrive. If you have concerns about your ability to withstand the lodge or about the contagiousness of other participants on your health (i.e., HIV, Zika, etc.), please discuss this with your physician before participating. Participation is open, voluntary, and at your own risk.

Since then, Lee has produced fourteen books on the teachings of Kryon and was the co-author of three Indigo Children books. These Indigo books introduced the world to the term "Indigo Children" in 2000, spawning many follow-up books by various authors, a movie, a documentary, and lots of interest worldwide regarding our changing kids! The Indigo books have sold almost half a million copies world-wide in twenty-three languages.

As the original channel for Kryon, Lee's service was awarded an honorary Doctor of Science in transpersonal psychology and metaphysics by Delphi Metaphysical University. In 2012 Monika Muranyi began her journey with Lee when she launched her first published book, *The Gaia Effect*. Monika went on to publish three more books from the vast collection of Kryon channels. Their partnership has resulted in the creation of three beautifully illustrated oracle card decks, two smart phone apps, and the Healing Wednesday program, a weekly online gathering of old souls. Back in the 1990s, an elite team was chosen to document their paranormal investigations on the SyFy TV Network. The highly successful show, *Ghost Hunters*, aired for 12 seasons with original members Jason Hawes, Steve Gonsalves and Dave Tango. Shari DeBenedetti joined the show in the final 2 seasons before it ended on the SyFy network. This team brought the topic of supernatural occurrences to the forefront of the television industry and American culture. Since the original show ended, these Atlantic Paranormal Society (TAPS) teammates stayed current working cases together, documenting & continuing their research. In 2019, the Discovery/Travel network show re-booted the show as *Ghost Nation* with the original team members Jason, Steve and Dave. Shari was soon reunited with them. They revisited their most chilling cases and investigated new, disturbing haunts, aided by Dave's addition of state-of-the-art technology. The success of the reboot proved that the TAPS team never skipped a beat with fans and followers, and after just two seasons of *Ghost Nation*, the *Ghost Hunters* name returned in 2021. KEEPING VICTORIAN SPIRITUALISM ALIVE
The Paranormal Couple: Satori Hawes and Cody Ray DesBiens

2:00pm-5:00pm, Assembly Hall

Satori and Cody both have a deep respect for the Victorian era, when Spirituality was in its Golden Age. The popularity of seances, gazing balls, and psychic shops were all the rage. The couple will discuss the Victorian era, as well as give demonstrations of divining rods, scrying mirrors, and "Old School" communication techniques. Cody and Satiro have a special level of enchantment when they communicate, and it seems they are able to open a door to intelligent communications with the other side, which are often heard by everyone in the room. Will you hear it too?

Cody Ray DesBiens and Satori Hawes, the "modern-day Paranormal Couple" are paranormal investigators and researchers with The Atlantic Paranormal Society (TAPS), founded in 1990 by Satori's father, Jason Hawes. After working together on a few TAPS cases, they found that they had a connection to each other that was like no other connection. In fact, it seems that when they are together, and only when they are TOGETHER, they can open doors to communicate intelligently with spirits on the other side. What makes their communication different from other psychics or mediums is that the intelligent communication can be heard by others, too. Founders of The Paranormal Couple's Haunted Museum of Objects, Oddities, and Curiosities, they curate a large collection of paranormal objects from around the world. They and their mobile museum travel throughout the U.S. to educate and inform others about haunted objects, trigger objects, as well as the care and precautions that they require. They are presently in the planning phase of a brick & mortar museum, which will permanently house their museum objects. As TAPS team members, you will often see Cody and Satori as periodic ghost investigators on Travel Channel's *Ghost Hunters* and *Ghost Nation*.

Juliana McCarthy

9:30 am-4:30pm, Assembly Hall, \$110.00

Join astrologer Juliana McCarthy for this all-day workshop on the Lunar Nodes. We'll examine our personal charts to determine our true-life path, purpose, and past-life karma. What lessons are you here to learn, heal, and integrate from ancestors and past lives? What is your highest evolutionary potential this time around? How can the lunar nodes reveal soulmates and past-life relationships? The North and South Nodes tell the most important story of our karmic evolution. As we unpack our birth chart and nodal journey, we'll have a much better understanding of who we are and why we're here. Astrology often confirms what we already knew but didn't have the language to express. Throughout the course of the day, we'll become more fluent in this ancient cosmic framework of myth, archetype, and divination, while holding new keys of self-awareness and understanding others. Be sure to bring your birthdate, time, and location.

For more than twenty years, Juliana McCarthy has been studying and practicing Evolutionary Astrology, finding it to be a powerful tool for self-exploration and examining how we relate to others. She loves working with people to help them understand their authentic selves—their complexities, gifts, karma, and life paths. In particular, she finds Astrology to be helpful for major transitions, unexpected life changes, and for better understanding relationships—romantic and otherwise. Juliana also practices Energy Healing, using a blend of Reiki and shamanic methods. She helps facilitate powerful breakthroughs by clearing blockages around physical, spiritual, relationship, and emotional difficulties. A longtime student of Tibetan Buddhism, Juliana is an avid meditator and spiritual practitioner, and she regularly gives talks and leads various workshops and retreats. Her popular Instagram feed can be found @etherealculture, and she runs a Patreon page with online talks and video podcasts. Please consider joining at patreon.com/astrologer. CONSCIOUS COSMIC CONTACT
Andrea Perron
 9:30am-12:30pm, Lyceum, \$55.00

This workshop seminar will introduce the participants to a method of connection that Andrea Perron developed and describes as Conscious Cosmic Contact. It will include an opening and closing meditation and will prepare the individuals involved for engagement with those she refers to as the Galactic Family. It is recommended for people who are not in any way fearful of such close encounters and are willing to open their hearts and minds to receive an experience which will undoubtedly and permanently alter their perspectives. This process is intensely focused on achieving a sense of oneness with the Universe and once this profound connection occurs, it can't be reversed. Once awake to the existence of extraterrestrial beings, there is no going back to sleep. This workshop expands the human frame of reference unlike any other and is essentially a commitment made to spiritual ascension by way of an excursion to the Fifth Dimension. It is not for the faint of heart and it requires courage to take a quantum leap in comprehension, often resulting in a personal Paradigm Shift.

Andrea Perron is most closely associated with all things metaphysical, spiritual and supernatural. A well-established member of the international paranormal community, she is predominantly known as the author of the trilogy *House of Darkness House of Light*, the true story behind the iconic feature film, *The Conjuring*. A phenomenal box office success, the notoriety provided her ample opportunity and a multitude of forums to express what matters most, to share her lifelong celestial attachment to those she considers to be our Galactic Family. As a young child, Andrea was exceptionally self-aware, feeling like a misfit on the planet. At the tender age of thirteen she had her initial conscious contact and has, for all intents and purposes, been a so-called Ufologist ever since, conducting her research several decades before the term existed. It is her fervent desire to heal the world of its woes, to do her part to be the Light in the darkness and a beacon of hope for the future of mankind. The salvation of humanity requires spiritual enlightenment acquired by full disclosure that we are not alone in the Universe. Love will prevail. It is the answer to every question.

CASES OF THE HUDSON VALLEY WITH BEN HANSEN & MELISSA TITTL OF UFO WITNESS

Ben Hansen and Melissa Tittl

8:00pm, Auditorium
\$75.00: General admission:
\$110.00: VIP admission (Limit 50: reserved seats at the front of the auditorium plus a private reception with Ben Hansen and Melissa Tittl for autographs and photos)

Many people have heard of notorious Area 51, the quiet rural area of the Hudson Valley just north of New York City that has proven its title of "UFO Capital of the World."

In the past decade, the Hudson Valley has been the site of more than 3,000 reported extraterrestrial encounters. Former FBI agent Ben Hansen and investigative journalist Melissa Tittl of Discovery+/Travel Channel's *UFO WITNESS* covered the subject in their 2021 Shock Docs episode called *Alien Invasion: Hudson Valley*. The documentary followed Hansen and Tittl as they set out to uncover the truth about alien activity. Countless Hudson Valley residents with first-hand UFO experiences were interviewed, including a skeptical community leader who finally shared his untold

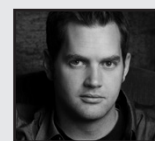

story of a potential UFO landing. Using a "multimodal approach" with specialized cameras and technology, their goal was to communicate with the unknown entities, and they believe they succeeded! Part 2 of this evening's fascinating presentation will take you through some of their most compelling cases on *UFO Witness*. With two successful seasons completed, this incredibly popular Discovery+ show is both candid and startling as it covers UFO life forms and the technology used for communication. Ben and Melissa's combination of experience, research, and technology know-how, with honest scientific reporting, is simply mind-blowing.

Inspired by *The X-Files* on television as a teen, Ben Hansen followed his dream and graduated from the University of Utah with a degree in sociology and criminology. After college, he worked as a crime scene investigator for several agencies, including the Utah Crimes Task Force. A former Special Agent for the FBI, his expertise with equipment, especially night vision technology, has made him a leading expert in paranormal analysis. His television career first took off when he played a major role in creating a new investigative reality television show for Syfy Channel called *Fact or Faked*. Departing from the mainstream paranormal shows prevalent at the time, this show conducted observation-based field investigations and focused on alleged evidence already at hand. Since appearing on Discovery

channel's *Ghost of Morgan City*, Ben recently completed his second season as star of Discovery's blockbuster show *UFO Witness* with co-star Melissa Tittl. Additionally, Hansen shares awareness of the increased UFO sightings, documents civilian and pilot reports, and interviews on prominent television news shows.

For more than a decade, Melissa Tittl, has served as a producer, writer, and investigative journalist for Hathor Studios. She has spent most of her life on either side of the camera telling stories that provoke people to question the occurrences of everyday life. An Emmy Award winning producer in motion picture & television, Melissa has worked on shows such as *Ancient Alien*, *Hangar 1: The UFO Files*, and *Sci-Trek: Neanderthals*. She also serves as Head of Content at GAIA. Recently, Melissa has proudly completed her newest documentary film, *CODE 12*, which follows her journey as she deciphers the matrix code that all beings (human or non-human) can use to enter or stay in our realm. Beginning with ancient code found in tombs, she follows evidence and theories while interviewing incredible scientific minds in the hopes of unraveling a common thread. Melissa focuses on looking at people, places, and experiences in a more holistic way. Her insight into the universe as well as her knowledge of alien life forms and technologies make her the perfect co-star of *UFO Witness* with former FBI agent Ben Hansen.

UFO INVESTIGATIONS: TECHNOLOGY, AND TECHNIQUES

Ben Hansen

Ben will present a two-part workshop! In the first segment

Ben will discuss the methodical approach he employs for witness interviews, as well as the equipment and technology he recommends for gathering evidence. Then, Ben will present a summary of his thesis work at Georgetown University entitled *Predicting the Consequences of Global Reality Compromising Events*. An example

of a Reality Compromising Event (RCE) would be a global crisis created by extraterrestrial contact. Based on research of what we know about disasters and crises, Ben will predict whether the world is ready for a life-changing event such as direct extraterrestrial contact. Additionally, we will discuss what humankind can do to prepare psychologically and spiritually for the reality shift caused by such an event.

CLOSE ENCOUNTERS OF THE PSYCHIC KIND: A PSYCHIC THERAPIST'S MEETING WITH AN INTERGALACTIC COUNCIL

Vincent Genna

2:00pm, Auditorium, \$60

According to astronomer and UFO researcher J. Allen Hynek, there are seven types of close encounters. The fifth type is "bilateral contact experiences through conscious, voluntary, and proactive human-initiated cooperative communication." But what if the bilateral communication is telepathic and alien-initiated? That is exactly what Vincent Genna experienced in 2018; a close encounter of the 'psychic' kind. During a deep meditation, a "spirit-council" of extraterrestrials explained that they chose to connect with Vincent due to his integrity for the truth and his ability to influence humans. Vincent will share details about when aliens first began visiting our planet, who they are, why they come here, and how they are able to navigate and transverse multiple universes. The information shared will shake commonly accepted biblical and evolutionary theories of life and creation!

CODE 12: DECIPHERING THE SECRET CODE

Melissa Tittl

Auditorium, 7:30pm, \$30.00

Da Vinci code meets Indiana Jones in the setting of Inception. As the world nears a precipice of suffering, technology has become the answer to our problems. It seems that even with the greatest discoveries we still haven't figured out how to fix some of the extraordinary problems that plague humanity. Some people refer to this ceiling as the matrix, an invisible hand that puppets our every move on this planet. Investigative journalist and filmmaker Melissa Tittl never really thought anything of this concept until a personal experience haunted her. It became a journey to unravel an ancient code in the tombs of the pharaohs, in the temple walls, and at ancient sites throughout the world. She uncovers not only one code, but two; a code that we use today in our current mathematical systems and a second code that hints at something more ancient and more profound. A computer programmer warns her, "If you are in a simulation and you are asking these questions, whoever simulated you, isn't going to let you get this far." Putting danger aside, she pursues her mission. She interviews geneticists, archeologists, biblical scholars, quantum physicists, all of whom have discovered the same code in their work. Could this be the next part of our evolution? Melissa weaves together profound evidence that our greatest human potential is hidden in plain sight, waiting for us to understand how the universe really works.

We live in an era when extra-physicality and spirituality are supported not only by centuries of testimony and experience but by world-class science itself. Historian and popular voice of esoteric spirituality Mitch Horowitz discusses extraordinary advances in ESP research, including precognition and clairvoyance; how quantum mechanics and neuroscience affirm an extra-physical and perceptual universe; the convergence between UFOs and psychical research; and the evidence for thought causation and after-death survival. As Mitch argues, what was once called belief is today confirmed by the science that was formerly used to challenge it.

The Kybalion

Mitch collaborated with Emmy-

nominated director Ronni Thomas on the feature documentary *The Kybalion* to explore the ideas of Hermeticism, a late-ancient amalgam of Greek and Egyptian spiritual thought. Based on the 1908 occult classic of the same name, *The Kybalion* was shot on location in Egypt and premiered in 2022 as the #3 documentary on iTunes. It resounds on the big screen. As part of this special evening, Mitch introduces and screens the film, and holds a Q&A after.

A historian of alternative spirituality, Mitch Horowitz is one of today's most literate voices of esoterica, mysticism, and the occult. Mitch illuminates outsider history, explains its relevance to contemporary life, and reveals the longstanding quest to bring empowerment and agency to the human condition. Among the few occult writers whose work touches the bases of academic scholarship, national journalism, and subculture cred, Mitch is a writer-in-residence at the New York Public Library. He is a PEN Award-winning author of books including *Occult America*, *One Simple Idea*, *The Miracle Club*, *Daydream Believer*, *Uncertain Places*, and the forthcoming *Modern Occultism*. He has discussed alternative spirituality on CBS Sunday Morning, Dateline NBC, NPR's All Things Considered, CNN, Vox/Netflix's *Explained*, VICE News, and the first two seasons of AMC *Shudder's Cursed Films*.

ESOTERIC MAGIC: A
REAL-TIME VIDEO
LECTURE

Dean Radin via live remote
video

7:30pm, Auditorium
\$45.00

Until about 500 years ago, little was understood about the nature of the material world. Effects that were not understood, especially effects related to the mind, were called magic. As science developed, some of these mysteries began to yield to rational explanations, and old beliefs about magic were dismissed as mere superstition. But as science continues to delve deeper into the nature of reality, we are discovering to our surprise that some of those ancient ideas and practices were correct after all. Dean Radin joins us live via video feed for this fascinating talk on the esoteric nature of magic!

Dean Radin is Chief Scientist at the Institute of Noetic Sciences (IONS), Associated Distinguished Professor at the California Institute of Integral Studies (CIIS), and chairman of the biotech company, Cognigenics. He earned an M.S. in electrical engineering and a Ph.D. in psychology from the University of Illinois, Urbana-Champaign, and in 2022 was awarded an Honorary Doctor of Science from the Swami Vivekananda University, an accredited institution in Bangalore, India. Before joining the IONS research staff in 2001, Radin worked at AT&T Bell Labs, Princeton University, University of Edinburgh, and SRI International. He has given almost 700 lectures and interviews throughout the world and is author or coauthor of more than 300 scientific and popular articles, four dozen book chapters, and nine books, four of which have been translated into 15 foreign languages: *The Conscious Universe* (1997, HarperCollins), *Entangled Minds* (2006, Simon & Schuster), *Supernormal* (2013, Random House), and *Real Magic* (2018, Penguin Random House).

Most people are aware they have a dedicated Spirit guide but do not know that many different guides will assist them with tasks throughout their life. Through meditation, automatic writing, and channeling, participants will both connect with their own guides as well as practice bringing through messages from the guides of other students. Anticipate laughter and open hearts as you are surrounded by the love of Spirit!

This fascinating and intriguing evening has acclaimed author Whitley Strieber introducing the film of his best-selling book, *Communion*. Both the hardcover and paperback edition of *Communion* reached the number one position on The New York Times Best Seller list (non-fiction), with more than 2 million copies collectively sold. After the showing of the film, Mr. Strieber will host a Q&A for audience members.

In the book, Strieber contends that he was abducted from his cabin in upstate New York on the evening of December 26, 1985, by non-human beings. Although the book is perceived generally as an account of alien abduction, Mr. Strieber drew no conclusions about the identity of the alleged abductors, and referred to the beings as "the visitors," a neutral term chosen to entertain the possibility that the abductors were not extraterrestrials.

AUTOMATIC DRAWING
Susan Barnes

7:00pm-10:00pm, Lyceum, \$55.00

Automatic drawing was developed by mediums in the 1800s and has been used since the Victorian era. Later Surrealists used it as a means of expressing the subconscious mind. Today it is used as a technique to unlock the spiritual and subconscious mind. In automatic drawing, the hand is allowed to move randomly across the paper. In applying chance and accidents to making a drawing, the images are freed of rational control. Hence, the drawing produced may be attributed in part to the subconscious and may reveal something of the psyche, which would otherwise be repressed. Some early Spiritualists believed it was a Spirit who controlled the drawing process by physically taking control of the medium's body. Artists who have used automation include Georgina Houghton, Hilma af Klint, and Andre Breton.

MEDIUMSHIP
DEVELOPMENT:
FOCUSING ON
MEDITATIONS

Carol OHare

9:30am-4:30pm Wednesday
9:30am-12:30pm Thursday
Assembly Hall, \$165.00

The original purpose of giving messages through Mediumship was to make one aware of the higher side of life; thereby to act and think from more Godly point-of-view. This workshop will begin with a brief overview of Spiritualism, though most of our time will focus on meditations. Workshop topics will include the history of Spiritualism, from its founding with the Fox Sisters to physical mediumship to mental mediumship, a brief overview of "The 4 Clairs", controlling the ego, defining ESP, parapsychology, poltergeists, and other manifestations, protocol to protect oneself before and after meditation, and practice.

Thursday, August 31
HAND
REFLEXOLOGY
David Speer

9:30am-12:30pm, Lyceum, \$55.00

Reflexology is an ancient art that applies physical pressure to the feet, hands, or ears with specific thumb, finger, and hand techniques. Reflexologists recognize a system of zones that reflect a detailed image of the entire body via the feet and hands; the practice manipulates and balances energy (Qi) via certain pathways in the body. It also breaks up crystalline buildups. Learn simple and powerful techniques to assist the body's own healing processes to resolve headaches, sinuses, neck, back, shoulder and neuromuscular discomforts, improve relaxation and vitality, and improve and support the circulatory, digestive, and respiratory systems! Reflexology has no toxic side effects, is all natural and uses the body's own healing renewable energy-you might consider it a green medicine, an enlightened alternative for the 21st Century.

Thursday, August 31
ESCATOLOGY:
PROPHECY THROUGH
RELIGIOUS TEXTS
Carol OHare

2:00pm-5:00pm, Assembly Hall
\$55.00

Understanding prophecy and natural law assists us in being less fearful. We are what we attract. There are 76 spiritual laws and 35 physical laws. During ancient times, everyone "watched for a sign." Was St. Malachy's prediction of 113 popes correct? Why is the percentage of accurate predictions very rare? Symbolism, which is how information is transmitted to the mediums, is not always clear or concise. Some information may be clearly transmitted while some is not always easy to determine due to the nature and/or method of transmission. Every medium is different in the way information is received. At present, people are curious as to what our future holds, which is why others take advantage of the opportunity and create fear. Being forewarned is being forearmed.

Friday, September 1
ELECTROMAGNETIC
HEALING WITH
QUARTZ CRYSTALS
David Speer

9:30am-12:30pm, Lyceum, \$55.00

Crystal healing has been recognized in many cultures throughout history, including the Hopi Native Americans of Arizona, Hawaiian Islanders, the Chinese, the Japanese, and the Tibetans. Crystals can act as receivers as well as transmitters, interfacing with the energetic anatomy and stimulating energetic currents that have been variously called Qi (Chi), Prana, Mana, Pneuma, Vital fluid, Odic force, or Orgone. Scientifically, piezoelectricity is the ability of certain materials (notably crystals, some ceramics and biological matter such as bone, DNA, and proteins) to generate an electric field or electric potential in response to stimulation. Join us and learn how quartz crystals, which are renowned for their healing and piezoelectric properties, conduct energy. Replace daily discomforts with healing and peace with crystal energy. Come

experience the physical evidence, healings, and unbelievable relaxation possible with quartz crystals!

Following an introduction, Jim will welcome audience members to present small items to be read. (Please bring objects that will fit in Jim's hands

and do not bring valuable or fragile items.) Though objects are preferred, printed, unframed photographs are also acceptable.

TIMELESS MAGIC

Sean Masterson

8:00pm, Auditorium
\$35.00 for adults
\$19.00 for kids under 12

Sean Masterson's Timeless Magic is a one-of-a-kind thrill featuring sleight-of-hand, audience participation, and highly deceptive but rarely seen 19th Century magic effects that are sure to delight young and old. Join us for an evening of eye-popping illusion by Chicago's greatest magician.

A Chicago mainstay, Sean Masterson has been entertaining audiences with his close-up and stage magic for more than 25 years. He was recently flown to Paris by the Chicago's Tourism Bureau to perform for French journalists and was invited to perform at Governor J.B. Pritzker's inaugural ball. Sean became interested in magic when he received a deck of magic cards for his 7th birthday. Five years later, at the age of 12, he won Chicago's Junior Magician Award. He went on to study theater and French in college, which explains his interest in the intermingling of magic and storytelling, as well as his appearances in France. Sean's passion for performing is equal to his fascination with magic history and its larger-than-life characters. The Chicago Tribune writes that Masterson offers "prestidigitation for the Harry Potter generation, with a minimum of flash and a maximum of understated showmanship" and has called his sleight-of-hand tricks, "spellbinding and highly entertaining."

LILY DALE ASSEMBLY HISTORY

The History of Lily Dale is one of courage, stamina, and dedication. It all began in the year 1844 – preceding the Hydesville manifestations by the Fox Sisters. In the village of Laona, William Johnson invited Dr. Moran a mesmerist from Vermont, to lecture before a group of interested people. Mr. Johnson the son of a minister was the father of Marion Skidmore who became a great leader for Spiritualism at Lily Dale. At that time Jeremiah Carter, physically enfeebled, had sought to be treated by Dr. Moran. Unfortunately Dr. Moran had to leave before such could be applied. Mr. Johnson suggested that they try the experiments, demonstrated by the Vermont doctor. The results were startling. Mr. Carter became entranced. An entity said to be a Dr. Hedges spoke to the people present – giving messages from Spirit and demonstrating the laying on of hands.

The advent of the Hydesville manifestations strengthened the purpose of the group and they termed themselves Spiritualists, Liberals, and Free Thinkers. The group met regularly to discuss their beliefs and practice their healing and mediumship. Many great speakers and mediums had their early beginnings in Laona. In 1855 the religious society of Free Thinkers was formed in Laona, NY.

In 1873 Willard Alden who owned a farm and stagecoach stop along the east banks of the Cassadaga Lakes had a visit from Jeremiah Carter who insisted that spirit voices kept continuously urging him to go to Alden's farm and start a camp meeting. This was agreed upon with Mr. Alden and the group met there for summer picnics and camp meeting. This area is now known as The Leolyn Hotel and woods. After Mr. Alden's transition, his heirs became dissatisfied with financial arrangements, so the spiritualists in 1879 decided to purchase land and move their location. Twenty acres of land was purchased adjacent to the Alden farm from John Fisher at the price of \$1,845.00. Mrs. Amelia Colby was asked to name the Association.

Her spirit guide gave her the name of Cassadaga Lake Free Association. In 1903 the name was changed to The City of Light and in 1906, The Lily Dale Assembly: named for the abundance of lilies on the lake.

Men and women worked tirelessly side-by-side, felling trees, clearing brush, and making winding paths through the forest. The grounds were surveyed for lots. No lot was to be sold outright; lots were leased for 99 years or rented for the season. The dedication service was held at Lily Dale under a cradle canopy of boughs known as The Bough House, fashioned from entwining branches and flowers. Rough-hewn logs were used for benches. The first speaker at Lily Dale was Elizabeth Lowe Watson. She was a dynamic speaker, a liberal and suffragette.

Financial problems were experienced from the early beginning of the camp, this acted strangely enough, not as a deterrent, but as a challenge to go forward and work harder towards the anticipated goal. The first order of business of the camp was the discussion of building a permanent Auditorium. This was accomplished in 1883, and later remodeled in 1901. The seating capacity was twelve hundred. There has been many times during Lily Dale's history that people stood three deep outside the auditorium in order to hear the lecture.

LILY DALE ASSEMBLY HISTORY

Preceding the auditorium, in 1881 a Lyceum was formed by Thomas and Tillie Lees with the children meeting in a tent. They felt that training of the young was important. In 1928 the Andrew Jackson Davis building for the Lyceum was built and gifted to Lily Dale by a group of prominent spiritualists. In 1894 the Alden House was purchased by Mrs. Abby Louise Pettengill and renamed The Leolyn after her granddaughter. The Assembly later purchased The Leolyn from Mrs. Pettengill.

A hotel was built in 1880. It originally was the horse barn. It is known as a "hung suspension building". When additional floors were needed each floor was raised and the new additions built underneath. It was known as the Grand Hotel and renamed the Maplewood Hotel in 1903.

Today the Maplewood Hotel stands serenely, her old time charm still intact, overlooking the lake enticing the occupants to relax on its wide porch, and watch the ducks and swans glide by. Many philosophical subjects have been debated and aired on the Maplewood porch. Bit by bit these sturdy pioneers plodded forward – roads were built, sewers installed, lights became a reality. The first Library was held in a tent in the park in 1886. Then in 1888 was moved to the second floor of what is now named Assembly Hall. Today it stands proudly as the Marion Skidmore Library on Cottage Row housing thousands of the finest books on Spiritualism.

The Assembly Hall, famous for its thought exchange and class work came into being in 1888; the school building was erected in 1890 and when all schools were consolidated in 1937 it was used for the Community Club. The school building is now the museum and houses the largest collection of spiritualist memorabilia in America. The Octagon Building was also built in 1890 and was reserved for classes, arts, and the teaching of proper dancing. It housed the Junior League for years then became the Mediums League Building.

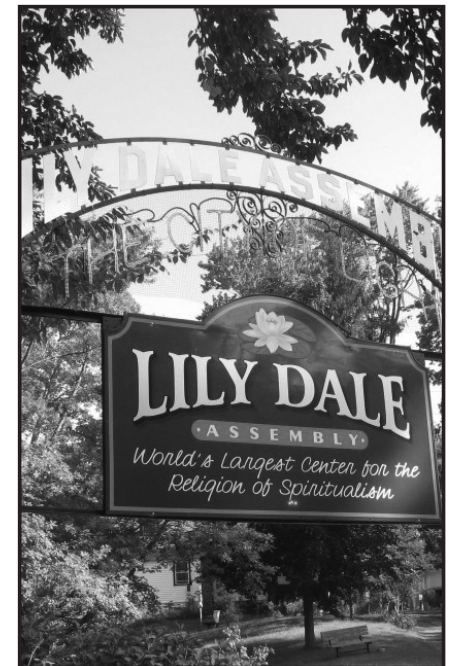

The Healing Temple was built and financed by Louis Vosberg at the direction of T. J. Kelly's guide. This National Missionary was one of the most outstanding mediums that served the Lily Dale platform. Incidentally, the famous actress Mae West, a friend of Jack Kelly visited Lily Dale at his invitation.

The original Fox Cottage was moved from Hydesville, New York, a gift from Benjamin Bartlett of Cambridge Springs, Pennsylvania and placed at Lily Dale in 1915. Tragically the cottage burned to the ground on the morning of September 1955. Fortunately the Peddler's trunk and family Bible were saved.

In 1898 Lily Dale had its own newspaper, The Sunflower. The editor was William Bach, who with his wife Evielena erected the Sunflower Pagoda. The United States Government in 1888 established the Lily Dale Post Office ensuring the inhabitants not only the convenience of its service but recognizing Lily Dale on the map.

From its lowly beginning of twenty acres, Lily Dale now owns more than one hundred sixty acres. Lily Dale has a splendid volunteer Fire Department and E.M.T. group. These men and women give freely of their time and efforts to protect the camp.

Beyond a doubt Lily Dale has lived up to that early promise. The roots of Lily Dale stand firmly in the past upholding spiritualist philosophies and always keeping its eye on the future. Lily Dale is a place for individuals to discover themselves and join with others who are on the same path. Lily Dale has comforted the bereaved, demonstrated the truth of immortality, and shown others a way of life known as the Religion of Spiritualism.

- Lily Dale Assembly cannot guarantee the availability of individual registered mediums. Please do not call the Lily Dale Assembly office to arrange personal consultations. Mediums' services are also available during the off season and also by phone and online.
- The Mediums will set their own appointments and fees. Fees will vary. Please contact individual mediums directly for details or see lilydaleassembly.org for their websites.
- Appointments are highly encouraged, both during and off-season. It is best to call and book your appointment before your visit to Lily Dale.
- True success is a three-way connection between the medium, client, and Spirit.
- Arrive on time at the session with a positive and open attitude. It elevates your connection. Let the mediums know if you understand, or if you need more clarity. Confirmation and validation are helpful to the outcome of a successful reading.
- Please ask clear and focused questions. If you are unsure about anything, ask the medium to explain. A medium realizes when the connection is over. Please do not prolong the session when the contacts are closed.
- Mediums are not fortune-tellers. You always have free will that allows you to make your choices in life.
